

# Pinderfields Breakfast Club Express

## Medical student Guidance

### **What?**

The 'Breakfast Club Express' is a coach service funded by Medical Education at Midyorks NHS Trust to transport Medical Students from Leeds to Pinderfields on each weekday throughout your Hospital placement during term time 2015/16. Then returning you back to Leeds at the end of the day.

### **Why?**

The 'Breakfast Club Express' will make it much easier for you to travel to and from placement each day without the cost of travelling, also makes it more environmentally friendly.

By using the coach service it will ensure you all will arrive on time for breakfast before the start of your Breakfast Club teaching each day.

It will free up the need for you to use our limited accommodation leaving rooms available for students who's priority is greater (see our accommodation policy for details).

There is also a sociable side to using the coach service as you will be able to meet and catch up with all the other medical students that will be travelling to Pinderfields for their hospital placements.

The service will also save over £20,000 per year in student travel reimbursement, which will be better spent on improving your experience while on placement at Pinderfields Hospital.

### **Who?**

This service will be available for all fifth year and ACC fourth year medical students that will be on placement at Pinderfields Hospital.

### **When?**

The shuttle bus service will be available on each weekday of your placement throughout term time during 2015/16.

The coach will make three pick ups in Leeds (7:05, 7:10 & 7:15) and drop you off at Pinderfields Hospital at 7:45. Please see appendix A for the full year timetable and times.

### **Where?**

Pick up point 1 will be near the Co-op on Cardigan Road

Pick up 2 will be from the sheltered bus stop on Woodhouse Lane on the Leeds side of the junction with Hyde Park Road.

Pick up point 3 will be from the bottom of Clarendon Road, near Park Lane.

Please see Appendix B for further details.
